ORDERING INFORMATION

	<u>xx xxx xxx xxx xxx x</u>
STO1: Model No.	L1 L2 L3 L4
A: normally closed B: normally open	U1: Nomex shrink wrap cap U2: Without cap insulation U3: Without epoxy cover
Temperature	and lead wire U4: With epoxy cover
Tolerance 05(+5°C), 08(≠8°C), 10(+10°C)	U5: Clear shrink cap insulation U6: PBT insulating case
Lead wire: Y1 (yellow AWG22), Y2 (yellow AWG24), Y3 (other)	U7: With M4 threaded case U8: Housing of PBT, leadframe leads

Portage Electric U Products, Inc.

Model ST01 Series

These snap action thermal protectors offer exceptional performance in an extremely small package. Designed as an economical solution, especially for motor transformer and lighting applications up to 5 AMPS, up to 250 VAC. The circular, low-profile shape fits neatly into small spaces. Available in a variety of configurations to meet different application requirements.

A Self-Hold model is available for applications requiring an additional level of protection. An internal heat source holds the circuit open until power is disconntected.

FEATURES

- Snap action design, quick break/quick make switching action.
- Preset calibration temperature, not adjustable in the field.
- · Brass case provides good thermal conductivity .
- Case is electrically alive. Multiple isolation options are available.
- Standard #22 ga. silicone rubber isolated lead wires. Other materials available upon request.

CONTACT RATINGS

- 5 AMPS/250 VAC
- Maximum Operating Voltage: 60 VDC
 500 VAC

CALIBRATION TEMPERATURE RANGE

- Available with nominal calibration temperatures from 60°C to 180°C
- Standard tolerance is $\pm 5^{\circ}C$

APPLICATIONS

Motors, transformers, lighting, coils, electronics

APPROVALS

• These devices have been evaluated under the components programs by UL and TUV. Please contact us for details.
